Summary

Aspiring Web Developer with a solid grasp of HTML, CSS, and JavaScript, eager to apply my skills in a dynamic internship. Quick to learn new technologies and passionate about creating user-friendly experiences, I am committed to contributing to team projects and enhancing my web development expertise.

Projects

Imposter-API

[GitHub](#) [Live](#)

- An API website for simple and easy interactive learning.
- Features a simple and user-friendly UI for easy interaction.
- Includes beginner-friendly documentation, with all routing techniques.
- with a complete and functional demo website.

Grocery-Bucket

[GitHub](#) [Live](#)

- Easy and responsive UI for better interaction and user experience.
- Used my own API from my API website "Imposter-API".
- Implemented efficient easy category and sub-category filtering.
- Google OAuth 2.0 for user authentication and authorization.

Portfolio

[GitHub](#) [Live](#)

- Simple and minimalistic UI with fluid responsiveness.
- Project and skills section for showcasing all my deployed projects and the tech stack I have used in them.
- Along with my resume and GitHub link.
